

Dear Couple,

Thank you for your interest in the Natural Family Planning Course. The system you will be learning is the Creighton Model FertilityCare™. Women come to learn the Creighton Model FertilityCare™ System™ for a variety of reasons: to achieve a pregnancy, avoid a pregnancy and/or evaluate their reproductive or gynecologic health using NaProTECHNOLOGY™. For more information about this system you can go to www.popepaulvi.com or www.caritasfertilitycare.com (Houston location).

To get started the system works as follows:

1) Attend an introduction session (group sessions are offered for free)

Current dates: October 12, 2014 @2:00pm

Location: Holy Family Church in Wharton

Cost: \$25/couple

2) Purchase packet of material: chart, stamps, user manual and general intake form \$35

3) Father is requiring 2 follow ups after the introduction session, the Creighton Model Fertility Care™ System™ recommends 8 follow ups within the course of a year. The first follow up is scheduled for 2 weeks after the introduction session and the second for 2 weeks later. Cost of a follow up is \$50. All follow up sessions are with the individual woman or couple. Follow ups sessions can be paid by credit card or check and will be billed by Caritas Complete Women's Care in Houston.

4) Follow up sessions can be done in person (at my home in Wharton) or long distance by Skype. To register for the introduction session, please contact Susanne Koch at susannekoch614@gmail.com or by phone (505) 710-0903.

Sincerely,

Susanne Koch M.S., CCC-SLP, CFCP

Fertility Care Practitioner for Caritas Complete Women's Care, St. Joseph Hospital, Houston, TX
